

NTM & Bronchiectasis Conference for Healthcare Providers – September 10-12, 2025
NTM & Bronchiectasis: Patient and Family Conference – September 13, 2025

Location: In Person: National Jewish Health in Denver, CO | Virtual: Livestream

About The Meetings: Nontuberculous mycobacteria (NTM) and bronchiectasis are complex, chronic respiratory conditions that pose significant diagnostic and therapeutic challenges for healthcare providers. The interplay between these conditions contributes to worsening respiratory symptoms, frequent exacerbations, and reduced quality of life for affected patients. We will have experts from across the country here to discuss this growing medical challenge. The 2025 meeting will be offered as a hybrid, with the option to attend in-person or online.

Audience: Provider attendees will include pulmonologists, infectious disease specialists, radiologists, respiratory therapists, nurses, and researchers. The 2024 Providers conference had 91 attendees while the patient and family conference had 440 attendees.
