

Sara has worked in Denver Public Schools for almost 10 years as a teacher and counselor. She enjoys working with students and watching them become the next generation of leaders. Being involved with 5280 AIR Society gives her the opportunity to reach students outside of the classrooms and schools she works in. After touring Morgridge Academy when she first moved to Denver, she was immediately inspired by the joy-filled community of students and staff and the amazing work they do. She feels fortunate that through 5280 AIR Society, she is able to help to support Morgridge Academy continue their great work.
