## Special Interests

---

Research Interests

Dr. Rose leads research on mining-related lung diseases including silicosis and coal worker's pneumoconiosis. Her research is also centered on respiratory diseases affecting post-9/11 military veterans. Additional research has been focused on hypersensitivity pneumonitis and sarcoidosis.

## Clinical Interests

Dr. Rose has a long-standing interest in the diagnosis, treatment and prevention of occupational and environmental lung diseases. She has particular expertise in dust diseases of the lung (pneumoconiosis) and in respiratory illnesses affecting post-9/11 veterans. She also is experienced in the diagnosis and management of patients with granulomatous lung diseases such as hypersensitivity pneumonitis.

## Board Certification

---

Internal Medicine, Pulmonary Medicine, Occupational Medicine

## Education

---

### Education

**1980 - 1983** Medical College of Virginia

**1976 - 1980** University of Illinois School of Medicine

National Heart, Lung and Blood Institute, NIH

---

### Fellowship

**1983 - 1986** Medical College of Virginia

## Academic Affiliations

---

Professor, Department of Medicine (Pulmonary Division), University of Colorado Denver; Secondary appointment in the Department of Environmental and Occupational Health, Colorado School of Public Health
